

Welcome to Moody! This guide will help you to connect to mbiwireless on your **Chromebook**. If you have a different operating system, please refer to its.moody.edu to find the correct guide for your operating system.

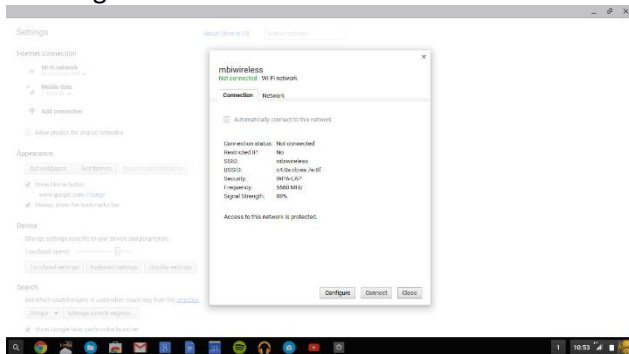

Step 1: Click on the lower left corner of your screen. This will open a settings menu. Click the **settings** icon. This will bring you to the main settings page.

Step 2: Click on **Wi-Fi network** then select **mbiwireless** from the list of available networks.

Step 3: Click **configure**, NOT connect. This will allow you to change settings and will speed up the process of connecting.

Step 5: Use the following settings in the wireless configuration dialogue. Use your normal myMoody username and password, then click connect when you're finished.

Join Wi-Fi network

SSID: mbiwireless

EAP method: PEAP

Phase 2 authentication: MSCHAPv2

Server CA certificate: Do not check

Subject Match:

User certificate: None installed

Identity: username

Password: [masked]

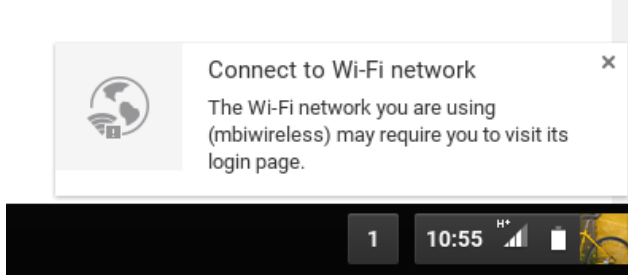

Anonymous identity:

Save identity and password
 Share this network with other users

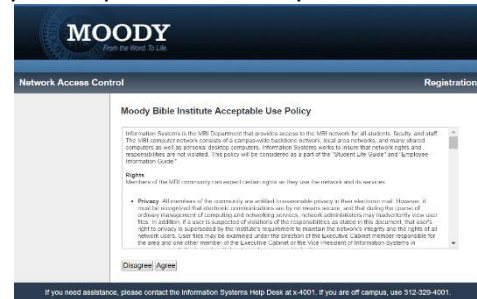

Connect Cancel

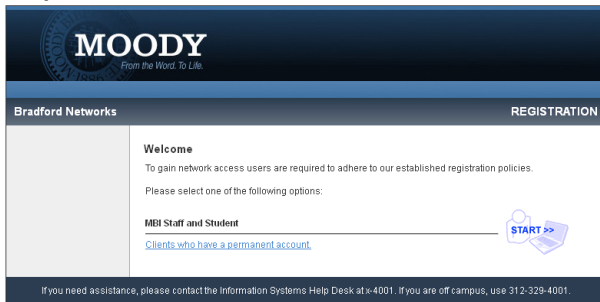

Step 6: You should see a notification that you need to visit a login page.

Step 7: Close the settings page and open your browser. Go to any webpage (my.moody.edu for example). You will be redirected to the page below. Click **Agree** to agree to Moody's Acceptable Use Policy.

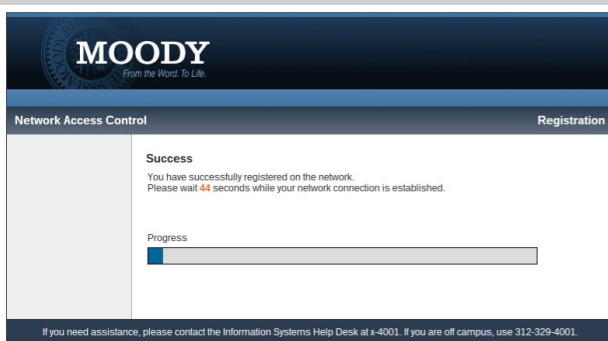

Step 8: Click **Start**.

Step 9: Enter your myMoody username and password and click **Next**.

Step 10: Wait for it...

Step 10: ...and done! Close your browser and re-open it.

You should be connected to the internet, but if you continue to have any issues, get in touch with ITS at (312) 329-4067 or its@moody.edu
